

GAIL & INGRID'S...
JANUARY NEWSLETTER
 Monthly Tips & Timely Advice!

As we head into the New Year, it's time to...

keep up with those periodic household chores that help the home run smoothly. Clean out the gutters before the next rain comes or replace your furnace and intake filters which keep many contaminants from coming in your home. Replace all your smoke detector batteries at the same time each year, as to not have to be reminded by that annoying chirping. Don't forget to install carbon monoxide detectors if you haven't done so in the past.

Can't find a contact phone number on an Internet site?

Many Internet companies do not list a phone number to call them, no matter what issue you have. There is a website called GetHuman.com which provides the numbers of many phone-shy firms. It's not foolproof but it's worth a try.

What's more annoying than a sales call

right in the middle of dinner or at any other time for that matter? Sign up with the National Do Not Call Registry. Even if you have done so in the past, some of those pesky phone marketers know how to get around the rules. Call 1-888-382-1222 from the phone number you want blocked from these calls. This registry is managed by the Federal Trade Commission and marketers have 31 days from the day you call to stop calling you. If you move and get a new number, you will have to register the new number.

Want to refresh a room?

Add a new area rug! Set it in place and call it a day. Area rugs achieve several décor goals at once. They add color, texture and define a space such as a sitting area or an area for play or sleep. This is one remodel that can be done on a budget.

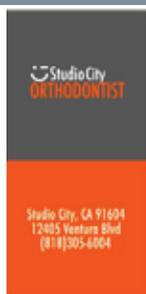

Experience isn't expensive... it's PRICELESS!
